

# Matthieu Bourgois

Full Stack Developer

## Experience

**General Assembly** - *Web Development Immersive* - Dec 2018

- With a strong focus on Javascript, built several full stack web applications individually and in a team, implementing CRUD operations, RESTful routing, and version control

## Projects

**Whatch** - *React.js | Node.js | Express | MongoDB*

- Full stack group project using The Movie DataBase API to recommend movies to users based on their choice in images displayed to them
- Designed product concept, UX, front-end Javascript functionality and CSS without the use of a framework or library

**HikeHitch** - *Python | Django*

- Full-stack hiking-carpool web app connecting users through matched hike search criteria based on length, difficulty, and location
- Designed concept and reducing carbon footprint, increasing social networks
- Users matched to others based on hike search by difficulty, length, location

**Unscrambler** - *Javascript | HTML | CSS*

- Educational word building game built using only front-end technologies
- DOM-manipulation and event-handling function through Javascript determine wins and losses, triggering level changes and display updates

## Additional Experience

**Nationwide Logistics** - *Logistics Coordinator* - Jan 16 - Aug 18

- Provided daily tracking and updates of driver loads to all customers and receivers involved, resulting in higher customer satisfaction
- Successfully planned driver routes to meet USDOT's daily-hours compliance and assured all shipments carried out arrived by due date
- Consistently met customer deadlines while coordinating with up to 5 or more parties simultaneously

**ICS English Institute** - *English Teacher* - Jan '15- May '16

- Built rapport with students from a wide range of cultural backgrounds.
- Developed curriculum reflecting students' needs and interests, keeping engagement high
- Broke down seemingly large learning tasks into meaningful and manageable segments, resulting in higher student comprehension

**Sarasota Memorial Hospital** - *PR Team Lead* - Oct '12 - May '14

- Led a team in providing assistance to all non-employees entering campus consumer engagement using empathy and understanding.
- Represented organization off-campus in a community outreach wellness promotion initiative.
- Gained understanding of the complex healthcare system and assisted consumers in navigation of said system in order to meet their needs.
